Razvan Negrea

This is me in a nutshell.

howl@wolfpilot.co

I am a Full-Stack Engineer with a thirst for creativity. I build smooth apps and websites with a story and, while my passion lies in solving problems, my experience as an artist taught me that composition, colour theory and dynamism do not only apply to art, or at least not in its traditional sense. Coding is a craft in itself.

Experience

Independent Financial Trader
Jan 2022 - Present

- Automation and scripting, coding private algorithms, indicators and strategies using TradingView's native language, Pine Script.
- Interpreting complex financial data, identifying actionable patterns and making data-driven decisions.
- Strategic thinking and planning of long-term trading goals.
- Executing high-stakes, time-sensitive decisions under tight deadlines and uncertain market conditions.

Senior Front-End Developer at Jungle Minds
www.jungleminds.com
July 2019 - Jan 2022

- Tech Lead for clients such as Tom Holkenborg, Leading Courses [BETA], Rouze and PON Automotive.
- Rebuilt Jungle Minds' new portfolio website.
- Responsible for security audits (XSS, CSRF, privacy leaks, dependency vulnerabilities, pentesting).
- Responsible for performance audits (Lighthouse reports, optimising bundle size and assets, FPS, repainting, memleaks).
- Coaching team members.
- Defining code review standards, merging strategies and conventions.

Senior Front-End Developer at Mirabeau
www.mirabeau.nl
January 2019 - June 2019

Front-End Developer at Mirabeau
www.mirabeau.nl
August 2017 - December 2018

- Lead Front-End Developer in charge of building user dashboard for employment mediator Brunel International. Tech stack comprised of React and GraphQL and full integration with Sitecore via JSS services.
- Additional responsibilities included mentoring colleagues, performing weekly code reviews and holding cross-team workshops.

- Built the new applicant flow for Brunel International. I was tasked with setting up the project, implementing custom multi-step form validation, tracking user behaviour and last, but not least, making things pretty.
- Reviewed applicants and carried out job interviews.
- Contributed regularly to Mirabeau's open-source boilerplate repo.

Front-end Developer at Propeller Communications
www.propeller.co.uk
July 2015 – July 2017

- Flexible Front-End role where I occasionally got to wear the almighty full-stack hat. I built websites in FuelPHP and WordPress, while also managing a few multi-site templates for hospitality clients.
- Workflow included automation via Gulp, BEM methodology using SASS and version control through Git.

Freelance Web Designer & Developer
June 2013 – July 2015

- Responsible for project planning with clients, negotiating contracts, developing wireframes, mock-ups and high-end designs, as well as coding and maintaining websites.

Tools & Skills

Languages

JavaScript & TypeScript | CSS & SASS | HTML | PHP | SQL

Technologies

React | Redux, Mobx & Zustand | Next & Gatsby | Axios & TanStack Query | Stripe | Framer Motion & JS Canvas | RTL & Jest | REST & GraphQL | Node | Express | PostgresQL | Git | npm & Yarn | Lerna | Webpack | Docker

Other

CI/CD | Unit, Integration, E2E & Visual Regression Testing | PWA | JWT | WebSockets | Web Audio and Speech APIs | Agile & Waterfall | Postman | Figma | Sketch | Photoshop

Education

Coventry University
Sep 2010 – June 2014

Faculty of Engineering and Computing
BSc in Multimedia Computing
